GOVERNMENT APPROVED — OFFICIAL REPORT

Disaster Assessment, Cost Estimation & Compensation Report

Assessment ID **ASM-20261031-56RF** | Assessment version **1** | Report version **1**
Report generated **2026-10-31T17:53:28.071867+00:00** by **Ananya Patel** (Insurance Recovery Officer)
Assessment engine **assess-engine/1.0** | AI narrative source: deterministic-template (AI unavailable)

1. Disaster & affected region

Field	Detail
Region	Jagdalpur
Region key / code	IN-CT-JGD / IN-CT-JGD
Country / State	India / Chhattisgarh
Hazard	Cyclone (cyclone)
Affected areas	Jagdalpur, Chhattisgarh; 32Q2+C53, MPM Hospital Rd, Housing Board Colony, Dharampura-01, Jagdalpur, Chhattisgarh 494001, India
Overall confidence	Low
Assessment created	2026-10-31T17:28:02.864426+00:00 by Ananya Patel

2. AI-generated assessment & reasoning

Preliminary assessment for Cyclone affecting Jagdalpur (region key IN-CT-JGD). Estimated affected people: unknown. Total estimated damage: unknown. Evidence: 1 task(s), 0 field report(s). Gaps: No field reports exist for this region yet. All figures are planning estimates with stated assumptions; none are official decisions.

1. Affected people unknown: no household observation and no assisted counts.
2. Housing loss unknown: no house damage observation.
3. Crop loss unknown: no crop-hectare observation.
4. Livestock loss unknown: no observation.
5. Infrastructure loss unknown: no observation.
6. Total damage sums 0 of 4 damage lines. Missing: Housing damage, Crop damage, Livestock loss, Infrastructure damage.
7. Preparation cost modelled from 1 submitted task(s).
8. Recovery cost unknown: damage total unknown.
9. Relief envelope unknown: damage total unknown.

3. Estimated damage & costs (AI vs approved)

Item	AI estimate	Approved figure	Confidence
Estimated affected people	Unknown	**Unknown**	Low
Housing damage	Unknown	**Unknown**	Low
Crop damage	Unknown	**Unknown**	Low
Livestock loss	Unknown	**Unknown**	Low
Infrastructure damage	Unknown	**Unknown**	Low
Total estimated damage	Unknown	**Unknown**	Low
Preparation expenses	Rs.25,000	**Rs.25,000**	Low

Item	AI estimate	Approved figure	Confidence
Recovery expenses	Unknown	**Unknown**	Low
Indicative relief envelope (planning only)	Unknown	**Unknown**	Low

Approved totals: damage Unknown (derived) | preparation Rs.25,000 | recovery Unknown | grand total Rs.25,000

The indicative relief envelope is a planning figure only; it is not an eligibility decision, offer, or sanction.

4. Calculation, assumptions, sources & explanation

Estimated affected people — confidence Low

Calculation: No household observation and no field-report assisted counts; cannot compute.

Explanation: Provide householdsAffected or collect field reports to enable this estimate.

Assumptions: —

Sources: regions.json: Region record for 'IN-CT-JGD' (at 2026-10-31T17:27:49.087890+00:00); hazards.json: Hazard record for 'cyclone' (at 2026-10-31T17:27:49.087890+00:00); tasks.json: 1 task(s) in region, 1 submitted (at 2026-10-31T17:27:49.087890+00:00); field reports: 0 report(s), 0 people assisted in total (at 2026-10-31T17:27:49.087890+00:00)

Housing damage — confidence Low

Calculation: No housesDamaged/housesDestroyed observation; cannot compute.

Explanation: Provide house damage counts to enable this estimate.

Assumptions: —

Sources: regions.json: Region record for 'IN-CT-JGD' (at 2026-10-31T17:27:49.087890+00:00); hazards.json: Hazard record for 'cyclone' (at 2026-10-31T17:27:49.087890+00:00); tasks.json: 1 task(s) in region, 1 submitted (at 2026-10-31T17:27:49.087890+00:00); field reports: 0 report(s), 0 people assisted in total (at 2026-10-31T17:27:49.087890+00:00)

Crop damage — confidence Low

Calculation: No cropHectares observation; cannot compute.

Explanation: Provide affected crop hectares to enable this estimate.

Assumptions: —

Sources: regions.json: Region record for 'IN-CT-JGD' (at 2026-10-31T17:27:49.087890+00:00); hazards.json: Hazard record for 'cyclone' (at 2026-10-31T17:27:49.087890+00:00); tasks.json: 1 task(s) in region, 1 submitted (at 2026-10-31T17:27:49.087890+00:00); field reports: 0 report(s), 0 people assisted in total (at 2026-10-31T17:27:49.087890+00:00)

Livestock loss — confidence Low

Calculation: No livestockLost observation; cannot compute.

Explanation: Provide livestock losses to enable this estimate.

Assumptions: —

Sources: regions.json: Region record for 'IN-CT-JGD' (at 2026-10-31T17:27:49.087890+00:00); hazards.json: Hazard record for 'cyclone' (at 2026-10-31T17:27:49.087890+00:00); tasks.json: 1 task(s) in region, 1 submitted (at 2026-10-31T17:27:49.087890+00:00); field reports: 0 report(s), 0 people assisted in total (at 2026-10-31T17:27:49.087890+00:00)

Infrastructure damage — confidence Low

Calculation: No infraSites/roadsKm observation; cannot compute.

Explanation: Provide damaged sites/road length to enable this estimate.

Assumptions: —

Sources: regions.json: Region record for 'IN-CT-JGD' (at 2026-10-31T17:27:49.087890+00:00); hazards.json: Hazard record for 'cyclone' (at 2026-10-31T17:27:49.087890+00:00); tasks.json: 1 task(s) in region, 1 submitted (at 2026-10-31T17:27:49.087890+00:00); field reports: 0 report(s), 0 people assisted in total (at 2026-10-31T17:27:49.087890+00:00)

Total estimated damage — confidence Low

Calculation: Housing damage unknown + Crop damage unknown + Livestock loss unknown + Infrastructure damage unknown (nothing to sum).

Explanation: Arithmetic sum of the damage lines above; inherits their uncertainties.

Assumptions: Excludes damage lines with unknown values; true total may be higher.; Unit rates are configurable planning defaults, not official SDRF/NDRF schedules. Verify against current government norms before official use.

Sources: regions.json: Region record for 'IN-CT-JGD' (at 2026-10-31T17:27:49.087890+00:00); hazards.json: Hazard record for 'cyclone' (at 2026-10-31T17:27:49.087890+00:00); tasks.json: 1 task(s) in region, 1 submitted (at 2026-10-31T17:27:49.087890+00:00); field reports: 0 report(s), 0 people assisted in total (at 2026-10-31T17:27:49.087890+00:00)

Preparation expenses — confidence Low

Calculation: 1 submitted task(s) x Rs.25,000/task-day = Rs.25,000.

Explanation: A rough activity proxy. Officer-observed spend should replace it.

Assumptions: Unit rates are configurable planning defaults, not official SDRF/NDRF schedules. Verify against current government norms before official use.; Assumes one task-day of effort per submitted task.

Sources: regions.json: Region record for 'IN-CT-JGD' (at 2026-10-31T17:27:49.087890+00:00); hazards.json: Hazard record for 'cyclone' (at 2026-10-31T17:27:49.087890+00:00); tasks.json: 1 task(s) in region, 1 submitted (at 2026-10-31T17:27:49.087890+00:00); field reports: 0 report(s), 0 people assisted in total (at 2026-10-31T17:27:49.087890+00:00)

Recovery expenses — confidence Low

Calculation: Damage total unknown and no observed spend; cannot compute.

Explanation: Provide damage inputs or observed spend.

Assumptions: —

Sources: regions.json: Region record for 'IN-CT-JGD' (at 2026-10-31T17:27:49.087890+00:00); hazards.json: Hazard record for 'cyclone' (at 2026-10-31T17:27:49.087890+00:00); tasks.json: 1 task(s) in region, 1 submitted (at 2026-10-31T17:27:49.087890+00:00); field reports: 0 report(s), 0 people assisted in total (at 2026-10-31T17:27:49.087890+00:00)

Indicative relief envelope (planning only) — confidence Low

Calculation: Damage total unknown; cannot compute.

Explanation: Provide damage inputs to enable this envelope.

Assumptions: NOT an eligibility decision.

Sources: regions.json: Region record for 'IN-CT-JGD' (at 2026-10-31T17:27:49.087890+00:00); hazards.json: Hazard record for 'cyclone' (at 2026-10-31T17:27:49.087890+00:00); tasks.json: 1 task(s) in region, 1 submitted (at 2026-10-31T17:27:49.087890+00:00); field reports: 0 report(s), 0 people assisted in total (at 2026-10-31T17:27:49.087890+00:00)

5. Official corrections & justifications

No corrections. The AI figures were approved unchanged.

6. Approval details & history

Decision: accepted by **Ananya Patel** at 2026-10-31T17:53:25.755152+00:00 (assessment version 1).
Reason: Test

Time	Officer	Action	Reason / detail
2026-10-31T17:28:02.864426+00:00	Ananya Patel	generated	AI assessment generated for officer review.
2026-10-31T17:53:25.755152+00:00	Ananya Patel	accepted	Test

7. Supporting evidence & data sources

Tasks in region: 1 (1 submitted) | Field reports: 0 | People assisted: 0 | Verified corrections for hazard: 0

Damage submissions: 0 | Expense records: 0 (preparedness Unknown, recovery Unknown) | Evidence attachments: 0 | Photos: 0

Evidence gaps: No field reports exist for this region yet.

Insurance: No insurance policy, payout, or transaction ledger is connected to this system. Parametric trigger status must be evaluated separately from disaster intelligence for this region and hazard, and any claim requires authorized insurer review. This assessment makes no insurance decision.

Disclaimer: Preliminary planning estimates generated from available local data with stated assumptions. Not an official approval, eligibility decision, insurance decision, or payment instruction. A Role 4 officer must review and decide.

Snapshot: approved figures frozen at version 1 on 2026-10-31T17:53:25.755152+00:00. Historical records are immutable; later engine updates never alter this report.
